Hayakawa, Expert On Words Speaks Here Next Week

Dr. S. I. Hayakawa, widely-known lecturer, author, and speaker on semantics, which is the study of words, is being brought to the University Dec. 6 and 7 by the humanities divisional council of the College of Liberal Arts.

Dr. Hayakawa, a small, vigorous Japanese-Canadian of 48, is editor of the quarterly, *ETC: A Review of General Semantics*, published by the International Society for General Semantics.

He is also the author of three books concerning semantics. His latest publication is "Language, Meaning and Maturity." His other popular sellers are "Language in Action" and "Language and Thought in Action," a Book-of-the-Month Club selection a few years ago.

Teacher Communication

Wordman Hayakawa will speak at 8 p.m. Monday, Dec. 6 in the Fine Arts Bldg. His topic will be "How Can Teachers Communicate Better." A discussion period and reception will follow his speech.

"Why We Don't Like Human Beings," will be Dr. Hayakawa's speech at 10:30 a.m. Tuesday in the Main Auditorium. A discussion period will again follow the talk.

Part Time Lecturer

Dr. Hayakawa is a part time lecturer at the University of Chicago and also lectures in schools and universities throughout the nation. His special interest is in the application of semantics to a variety of problems in education, art, human relations at home, communication and industry.

General semantics, the study and improvement of human processes with special emphasis on their relation to signs and symbols including language, is quite prominent in the United States today.

Words Are Important

Words are used by every college student, yet few seem to realize the importance of words in determining their course of life, according to the speaker. Dr. Hayakawa, one of the leaders in the modern attack on the misuse of words, will discuss this problem with Bowling Green students.

In addition to being an expert on the study of words, Dr. Hayakawa is an ardent jazz fan and also spends much time studying the lyrics of popular records. He thinks the lyrics are unrealistic and sentimental and believes something should be done to improve them.

The humanities divisional council of the College of Liberal Arts has brought Dr. Hayakawa here through the Adult Education Council of Greater Chicago.

Heart Surgery To Be Discussed By Noted Surgeon

"Surgery's New Frontier—The Heart" is the subject of a lecture to be presented by Dr. Thomas J. E. O'Neill of Philadelphia at 8 p.m. Thursday, Dec. 9, in 140 Chemistry Bldg.

Dr. O'Neill is a national lecturer for Sigma Xi, distinguished science society. Besides being thoracic surgeon at nine hospitals in Philadelphia, he is assistant clinical professor of surgery at the Woman's Medical College of Pennsylvania and visiting lecturer at the Graduate School of Medicine of the University of Pennsylvania.

He has done considerable research in the field of heart and lung physiology and surgery, is co-ordinator of a number of standard operative techniques on the heart and lungs, and has received awards and citations from the New Jersey, Pennsylvania and New York Medical Association, the American Medical Association, the American Legion, and the French Resistance Movement.

The lecture at Bowling Green is being sponsored by the Council of the Division of Science and Mathematics of the College of Liberal Arts and the University's Sigma Xi Club.

Art Professor Exhibits Work In Dayton Institute

Two intaglio prints, "Requiem" and "Crucifixion" by Philip R. Wigg, assistant professor of art, have been accepted by the Ohio Printmakers' show at the Dayton Art Institute.

The twenty-seventh annual exhibit began a scheduled tour of Ohio after remaining in Dayton through November.

DR. S. I. HAYAKAWA

Portraits Honor Past Presidents

Portraits hanging in the second floor hall of the Administration Building are of Dr. Homer B. Williams, Dr. Roy E. Offenhauer, and Dr. Frank J. Prout. The paintings were hung in honor and in memory of Bowling Green State University's first, second, and third presidents.

George Dinckel, a painter from the Toledo area painted the portraits of Dr. Williams and Dr. Offenhauer. The most recent of the three portraits, that of Dr. Frank J. Prout, was painted by David P. Wilson in 1953.

Dr. Williams' portrait was painted about 1938 after he had retired. However, Dr. Offenhauer's picture was not painted until after his death in 1939. A photograph had to be used as the model for Mr. Dinckel's painting.

Announcements On Sale In Well

Orders for January commencement announcements are being received in the north end of the Well, according to Frank Fusco, announcement committee chairman. Selling time is from 10 a.m. to 12 noon and 1 p.m. to 4:30 p.m. Monday through Friday.

Announcement price is 15 cents each. They should be available for the purchaser before Jan. 10, Fusco stated.

Committee members include Frank Fusco, Richard K. Jones, Nanette Strigrow, Donald Gosard, Nancy Weatherston, Janet Feile, Richard G. Brown, Patricia Latham, Robert Mettrione, Shirley Levering, and Phyllis Vredenburg.

Two Geology Students Plan 'Treasure' Hunt

By JOHN NEWMAN

It is the ultimate goal of many college students to eventually save enough capital, and acquire enough knowledge to go into a business of their own and be their own boss. This goal usually isn't reached for many years after graduation, but to two geology majors, Andy Matusiewicz, and James Pope, who won't even graduate until June 1955, this dream is already a reality.

To Explore

Andy, 28, and Jim, 22, have formed their own corporation with an initial capitalization of \$50,000. Purpose of the corporation is to explore, prospect, and stake mining claims and to obtain oil leases. They are setting out on a two-year expedition, after graduation, which will take them to Alaska, Northern Canada, and some states in the far West. They hope to find valuable minerals and ores which are making fortunes overnight for rank amateurs armed only with geiger counters and a mineralogist's handbook.

Use Latest Equipment

Andy and Jim, however, do not plan on such a hit-and-miss basis. Their equipment calls for the latest instruments in mineral detection, and their plans include extensive study of U.S. Government mineral reports of areas with the greatest potential, as well as employment of the geological knowledge accumulated in four years of college. A professional prospector also has to have a thorough knowledge in the related fields of chemistry, physics, and mathematics.

Proposed Seaway Will Improve Toledo As Port, Says Cary

"God gives the harbors, man must build the ports."

Robert W. Cary, Rear Admiral U.S.N., retired, emphasized this point during his talk, sponsored by the transportation classes in the college of Business Administration, Tuesday in the Recreation Hall. As his talk, "The Economic Advantages of the St. Lawrence Seaway," was focused on the local area, Admiral Cary was aiming the statement at Toledo which has a fine but poorly developed natural harbor.

Increase Trade

Admiral Cary stressed the increased trade on the Great Lakes in the past 20 years and the almost unlimited possibilities presented by the St. Lawrence Seaway.

It is Admiral Cary's conviction that Toledo can become the greatest port on the Great Lakes because of its fine natural harbor, good transportation facilities, and its location as a center of a five-state industrial area composed of Ohio, Michigan, Wisconsin, Indiana, and Illinois. Before Toledo can obtain its position as a leading lake port, said Admiral Cary, it must act quickly to develop its Harbor facilities, for the Seaway is only four navigation seasons away from completion.

Received Decorations

Admiral Cary has been concerned with water-borne travel and commerce since his graduation from the Naval Academy in 1914. During his 36 years in the Navy, Admiral Cary received many decorations.

After his retirement, he joined Willys Overland Motors where he served as Director of Planning, Director of Personnel and Industrial Relations and assistant to the executive vice president successively. A few months ago, having left Willys Overland, he organized the Trans-World Shipping Service Inc., which he now heads.

Among the many positions which Admiral Cary holds are executive vice president of John H. Faune Associates, Chairman of the Toledo Area Dispersion Committee, and Member of the Board of Toledo Marine Terminals Inc.

Local Accounting Club Petitions National Group

Phi Alpha Chi, local recognition society in accounting, is petitioning for membership in Beta Alpha Psi, national accounting fraternity. Founded at Bowling Green in 1938, the local group's membership has grown from 8 to 47 and has an alumni group of approximately 250.

Beta Alpha Psi was founded at the University of Illinois. To be eligible to install a chapter of Beta Alpha Psi a university must be a fully accredited member of the American Association of Collegiate Schools of Business. Though Bowling Green has only an associate membership, by meeting all the other requirements of membership the petition may still be acted upon favorably.

To be eligible for membership in the local group, a student must be an accounting major with a minimum 3.0 accumulative average in accounting and a minimum 2.2 accumulative average in all other courses. The membership requirements will be somewhat higher for the national organization.

If Phi Alpha Chi's petition is accepted, it is expected the Beta Alpha Psi chapter will be installed sometime in the spring.

BG's Allen Selected As Fourth Soloist For 'The Messiah'

Warren Allen, associate professor of music, has been selected as bass soloist for the forthcoming presentation of Handel's "The Messiah." The popular oratorio will be presented at 8:15 p.m., Dec. 12 in the Men's Gym.

Mr. Allen, who sang the bass role in last year's presentation, is a graduate of Southwestern College, Winfield, Okla. He has also studied at the Juilliard Institute and the University of Michigan, where he received his master's degree in music.

A member of the Bowling Green State University faculty since 1946, Mr. Allen has frequently appeared with the Toledo Orchestra and was formerly choir director at the First Methodist Church in Bowling Green.

Student Written, Directed One-Act Plays To Be Given

Tickets On Sale

Alpha Phi Omega will sell train tickets to Chicago, Buffalo and New York for Christmas vacation in the Well next week.

Riders to Chicago and Buffalo must go in groups of three or more to receive the student rate. There will be a special train car to New York if 25 or more students buy tickets.

Because of insufficient interest for the Cleveland bus at Thanksgiving, one won't be chartered for the Christmas vacation.

The tickets will be sold at the APhiO ticket desk in the Well, Monday through Friday, from 9 a.m. to 12 noon and 1 p.m. to 4 p.m.

Panhel Redefines Contact With Rushees

Because of the excellent way in which freshman and sorority women have been observing the restrictions concerning the period of no rushing and because there have been so few violations of them, Panhellenic Council has redefined "casual contact" as now stated on pages 26 and 27 of the AWS Handbook.

Casual contact is all normal association between coeds on campus outside of women's residence halls. For the benefit of all women students, Panhellenic Council stipulates the following:

There shall be no prearranged meetings between sorority women and rushees anywhere, in or out of town.

Double dates will be allowed, but at no time may a sorority woman arrange a date for a rushee.

These are the only stipulations on casual contact, so that walking together to and from class is permitted and a freshman woman may ride in an automobile with sorority women, should the occasion arise. Relaxing these rules is for the sole purpose of a more normal relationship among University women and is by no means for the purpose of rushing.

Three original one-act plays will be presented tonight and two Saturday at 7:30 in the Gate Theatre Auditorium. Tonight's bill includes:

"Love's Sacrifice," by Rudolph Verderber, concerns a crisis in the lives of a young married couple, according to Maxine Brown, director. The cast will consist of Ray Preston, Sue Spangler, Jerry Reed, and Lynn Allen. Assistant director is Frank Glann.

"Whither Thou Goest," by Sarah Polce, tells the story of a woman's struggle for acceptance in society and a man's decision between his world and his love for his mate. The cast includes Ted Skidmore, Robert Smith, Carol Joe Byrns, and Marjorie Curry. Kenneth Shoemaker is directing the play, assisted by Janet Spedder.

"The Gilded Cage," by Lucy Ann Liggett, tells the story of a domineering mother who wants to keep her daughter at home. The cast will include Mary Anne Neilands, Dolores Kolthoff, and Barbara Eyre. Director is Donald Friar.

Two On Saturday

Saturday's schedule includes "The Long Awakening," by James Liedtke, which tells of a woman who discovers she must stand on her own two feet. Directed by Carolyn O'Connor, the cast will include Lucy Ann Liggett and William McIntire.

"Police Ambulance," by Robert Stager, concerns a young boy who has committed murder. The cast consists of Sally Kilmer, Gene Rucker, James Slinger, and Stan Metz, and will be directed by Vince Tampoio.

The plays are all originals written by members of the playwriting class. Admission will be free.

University Theater To Use Realistic Setting For Play

Realism will be the motif in staging Tennessee Williams' famous play, "A Streetcar Named Desire," the second major production presented by the University Theater, according to John H. Hepler, technical director.

One Setting

One setting will be used throughout the play, depicting a once-fashionable house which has somewhat deteriorated. A divided stage will be featured, showing on one side the living room and bedroom of the house, and on the other a courtyard and part of the neighboring house.

Unusual will be the use of a scrim, a device consisting of theatrical gauze hung at the back of the stage. When lights are directed on it, it will appear to be the wall of the room, but when lighting comes from behind the gauze it becomes invisible and the sidewalk outside the house can be seen. The stage will be in comparative darkness most of the time due to dramatic lighting.

Crew Announced

Crews working on the production include: construction, Joy Lynn Morris, Joseph Gall, Richard Fligor, Esau Jacobs, Betty Idle, Linda Kittleson, Dorothy Jones, William Loudenslager, Kathy Ruetz, Kenneth Johnson, and Mike Jarvis; costumes, Janet Spelder, Shyrle Swanson, Patricia Welter, Ruth Wolcott, Lois Taraschke, Beverly Fletcher, and Barbara L. Hildebrand.

Props, Jim Rodgers Jr., Frank Glann, Donald Tyree, James Cole, Margaret Neumann, and Noel Greenhill; painting, Bobbie Keyse, Don Miller, Suzanne Moran, Ted Skidmore, Barbara Poole, Charlotte Thielhorn, Doug Cotner, and Mary Alice Carter; make-up, Sue Spangler, Mary Williams, Jackie Reaver, Connie Pennell, and Janice Baumgardner.

"Streetcar Named Desire" will be presented Dec. 9 through 11 in the Main Auditorium under the direction of Robert D. Richey, assistant professor of speech.

Photo by Dai Brim

Wearing what could turn out to be "million-dollar" smiles, Andrew Matusiewicz, left, and James Pope, pose behind a copy of the prospectus for "Mineral Futures Inc.," the corporation the two men have founded.

In Our Opinion

What Is Your Opinion?

Tentative plans for a three-day May Day week end packed with all-campus events were released by Student Senate via this newspaper Nov. 12.

The morning of the publishing of this proposal by Senate, we expected to be swamped with comments both pro and con from the student body, but little more than passiveness has been indicated by the students.

Senate president Carol Payne remarks that comments have generally been favorable, and the only dissention has been from students who are essentially in favor of the plan but fear too many events have been planned for such a short time.

Dormitory representatives have already expressed favor for the week end, and a meeting Monday evening with sorority and fraternity presidents will determine Greek opinion. Panhellenic Council has already expressed interest in sponsoring one of the events.

The ultimate goals of the plan, according to Miss Payne, are to form the foundation for a magnificent tradition on this campus, and to provide a time when major groups may work together.

In planning the varied events for the week end, Senate hopes that the academic classes, major University organizations, fraternities, sororities, and dormitories will combine talents and effort to "promote the whole University instead of individual groups."

Summer Session Explained

For those students planning to attend summer sessions on this campus this summer, and who are now enrolling for the spring semester, a new method of registering has been employed.

Previously, summer school students often found that courses they had expected to schedule to complete major or minor requirements were not offered during the summer sessions. This year, a schedule for summer classes has been issued along with the schedule for second semester courses.

Students may find out now what courses they may enroll for this summer, therefore, and avoid those courses while registering for the second semester.

Official Announcements

Pre-registration for freshman, sophomore, and junior students in the College of Education for the second semester of the 1954-55 school year will begin Dec. 10 and extend through Jan. 14. Students are requested to make appointments with their advisers as soon as possible. More details concerning pre-registration are being sent to freshman students. Senior pre-registration in the College of Education is between Dec. 2-17. Conferences for seniors with the Dean of the College of Education are being arranged. Students who have questions concerning pre-registration procedures should contact the office of the Dean of Education.

Measurements for academic costume will be taken at the University Book Store Dec. 6 to 9 for all faculty and January candidates for graduation. No cash is needed at the time of the order.

Pre-registration for the second semester commenced Wednesday, Dec. 1 for students who expect to graduate in June, 1955; August, 1955; or February, 1956. Seniors are to make appointments with the dean of their college by Dec. 17. Seniors enrolled in the College of Liberal Arts should also make appointments with their advisers during this period.

Juniors, sophomores, and freshmen will meet with their advisers from Dec. 10 through Jan. 14. Completed schedule envelopes are to be submitted to the Office of the Registrar during the pre-registration period.

Letter To The Editor

Campus Chest Drive Receives BG Support

To The Students And Faculty

It is with great appreciation that the Campus Chest Drive Committee wishes to thank the whole congregation of Bowling Green State University, for their fine support of the 1954 canvass. We would especially like to extend our thanks for the time and efforts of the many people involved in making this Campus Chest Drive a success. The collectors from each housing unit are to be personally commended for handling the responsibilities of giving group pop talks and turning in funds to the Drive at regular intervals.

Our appreciation also goes to Pres. Ralph W. McDonald; to our advisers, Dr. John F. Oglevee, and Dr. Jacqueline E. Timm; to Stuart R. Givens for the use of his office during Campus Chest Week; to Dr. Raymond W. Derr for the counseling and public relations tips which he contributed when needed; to the members of Kappa Delta sorority, who were responsible for illustrating and distributing 70 slogan posters; to the many typists who spent long hours handling our correspondence; and special thanks to the housing units who turned in 100 per cent collections. Your support was genuinely felt by the whole committee.

Sincerely,
Robert Lauer
Janice Crouch,
general co-chairmen.
Marcia Karszewski
James Conley,
assistant co-chairmen.

BG Beats Toledo U. In Rifle Contest

The Bowling Green ROTC rifle team defeated the ROTC rifle team of Toledo University by a six-point margin from the standing position after each team had fired for a total of 1300 points. The match was held at Toledo's Organized Reserve Center Sunday, Nov. 20.

All ties are decided by the team having the most points from the standing position. The Bowling Green cadets had 386 points from this position against 380 by the Toledo unit.

Ronald Arehart was high man for Bowling Green with 267 of a possible 300 points. The other Bowling Green team members and their scores are John Cunningham, 266; Ralph Wells, 263; Richard Manhart, 253; and Carl Henne, 251 points.

Moseley Leaves Achievements In Science Fields To Posterity

By ED WHELDEN

The words inscribed upon the head stone of Dr. Edwin Lincoln Moseley aptly sum up the desires, ambitions, and accomplishments of one of Bowling Green State University's most famous personalities. Another lasting tribute was paid to the famous scientist last summer when the name of the science building was changed to read Moseley Hall.

The life of Dr. Moseley was one filled with many achievements in the field of science. As a pioneer of teaching science by the experimental method, the Bowling Green educator taught more than 6,000 men and women during his 48 years as an instructor. President Emeritus Frank J. Prout was among these many students to study under Dr. Moseley.

Initiates Field Trip

Early in his teaching career Dr. Moseley initiated within his instruction methods the field trip type of class study. It was the Doctor's opinion that the student should observe nature in its element in order to more fully understand its intricacies.

In his 33 years on this campus, Dr. Moseley was given the first emeritus professorship ever granted by the University. The campus museum, of which he was curator, displayed 3,000 botanical species and 600 mounted birds which the professor had collected. Natural history specimens compiled by Dr. Moseley are on display in museums throughout the world.

A slight gentleman, who seldom weighed more than 95 pounds, he was easily recognized by his brisk walk, goatee, and intense piercing countenance. Born in Union City, Mich. on March 29, 1865, he was the youngest of nine children. He graduated from high school at the age of 15. The scientist received his B.S. and M.A. degrees from the University of Michigan.

Takes Trip To Philippines

In his early life, Dr. Moseley became a member of the J. B. Steere expedition to the Philippine Islands. It was during this expedition that several new species of the Kingfisher bird were discovered. One of these species was named Halsyon Moseleyi in honor of the Bowling Green scientist.

The BG educator was elected in 1904 as the president of the Ohio Academy of Science. During this period of his life, Dr. Moseley was teaching in the Sandusky area. A paper entitled "Sandusky Flora" was published in 1907. It told of his collection of wild plants in northern Ohio, the largest gathered in such a small area.

It was 1914 when Dr. Moseley joined the biology staff at Bowling Green State University. Five years later his book "Trees, Stars, and Birds" was published. This was a 400 page text with more than 300 illustrations designed to be used as a guide to outdoor science classes.

Long Range Predictor

Of the many areas of research Dr. Moseley was interested in, perhaps his weather studies received the most national and international attention.

(Viola Ebright, Owner)

136 W. Wooster

In 1943, through his studies of tree rings, the scientist predicted weather conditions for the next 31 years in the areas bordered by Iowa and New York. Current application of his research can be seen in his predictions concerning the present decade. According to Dr. Moseley calculations, a period of drought will be experienced during the years 1957-58. This will be followed by abundant rainfall beginning in 1959, lasting for two years. His predictions for the next decade call for excessive rainfall for the years 1962-74. Fellow scientists who have made a study of Dr. Moseley's work in this field, have declared that his ability for predicting climatic conditions was extremely accurate.

The great educator died June 6, 1948 at the age of 83. Never married, he willed his entire estate to Bowling Green State University. The funds from his estate are now used to assist worthy students in the field of biology.

Pianist Schedules Recital Wednesday

Helen DeJager Lakofsky, instructor in music, will give a piano recital Wednesday, Dec. 8, at 8:15 p.m. in the Practical Arts Auditorium. The recital is another of the Faculty Concert Series programs.

Her recital will open with Bach's "Chromatic Fantasy and Fugue" followed by Beethoven's "Sonata Op. 109," which is in three movements; the Vivace, ma non troppo, Prestissimo, and Andante molto cantabile ed espressivo. After intermission her music will be devoted to Debussy "Preludes" and Prokofiev's "Visions Fugitives, Op. 22" and "Sonata No. 3, Op. 28."

Seymour Benstock, cellist, will present the next concert in the faculty series Dec. 15, at 8:15 p.m. in the Practical Arts Auditorium. Dr. James P. Kennedy will accompany Mr. Benstock.

Poetry Group Chooses Grad Student's Poem

The poem "Musings," written by Sarah Police, a graduate assistant in the speech department, has been chosen by the National Poetry Association for publication in its Annual Anthology of College Poetry.

The Anthology is a compilation of the finest poetry written by college men and women of America, representing every section of the country.

Kent Faces U. Of Delaware In Refrigerator Bowl Game

By PATRICIA GUTHMAN

The Kent State football team is facing the University of Delaware in the Refrigerator Bowl this Saturday in Evansville, Ind.

This will be the first time that Kent has appeared in a bowl game. The Refrigerator Bowl is one of the eight post-season games sanctioned by the National Collegiate Athletic Association.

Kent ranks second among small colleges in the nation for rushing and total offense and they are the highest scoring team in Ohio.

the candidates' pictures are taken over to the Union Annex. Students vote by putting clothes in a box under their favorite candidate's picture. The woman who has the largest amount of clothing in the carton is crowned Rag Doll Queen. (Kind of a new twist to the Ugly Man, Ugly Woman contest).

"Sex is the thing that puts writing on a paying basis and makes psychology professors respectable." . . . University of Wisconsin Octopus.

Students in Nash Hall of the University of Toledo have their own "ham" radio station, WDNW, which broadcasts to two other dorms.

Two students built the set with approximately \$100 worth of equipment and many hours of work. The station doesn't interfere with FCC regulations, since it can only be heard inside the dorms. The sound waves travel through electrical wiring instead of through the air.

"The set operates on a 'carrier' current fed into an AC line by the transmitter through an ordinary electric socket. Jumper lines' transmit the broadcast to the other dorms."

The station features disc jockey shows and news reports. The announcers are dorm residents who donate their time during the operation of the station, which is from 3 p.m. until midnight.

A jazz concert was held recently at Marietta College. The concert featured local combos and a ballad singer. All the proceeds for the dance were turned over to the Marietta College Student Union Fund.

A bunny outfit complete with cotton tail is one of the items turned into the lost and found department of the University of Minnesota.

Other items include a suitcase filled with baby clothes, a thermos bottle, dresses, paint splattered overalls, fraternity pins without jewels, blankets, and dissecting kits.

All trunks and suitcases that haven't got name tags on them are being removed from the Antioch College housing units and being taken to Utopia. A student will have to pay \$3 to get his luggage back.

Student Senate at Wittenberg College is considering changing the women's hours. Objective is to increase the time allotted after special occasions and alleviate the 7:30 p.m. freshman permission.

They have sent out letters to 10 schools in Ohio requesting information on their women's hours.

At George Washington University the students are holding a drive for clothes for Korea. During the drive a Rag Doll Queen is elected.

Each of the women's groups elects a candidate. Every evening

Stolen from the Miami Student—Temple University News recently commented in an intelligent way upon the value of liberal arts education: "Unite peasant students: Drive the bourgeois Liberal Arts students from the classes."

"Stone on sight those scoundrels who snub the college masses, who prevent the peasant worker from attaining a 'B' Purge the straight 'A' capitalist, swindler of academic economy."

Civil war broke out recently at the residences at the University of Chicago. The fifth floor seceded from the rest of the dormitory. They blockaded the stairway from the fourth to the fifth floor, named the floor Robert E. Lee house, elected a resident head, and made plans to hold an exchange dinner.

All this developed because the fifth floor representative was censured in a council meeting during which a proposal was made for a cultural event. The fifth floor representative moved to substitute a pencil sharpener instead. His motion was greeted with silence. The president demanded a vote of censure for the fifth floor.

Two weeks later when the council refused to reconsider its decision, a representative from the fifth floor convention read a proclamation of secession. It stated, "Therefore, with a firm belief in divine providence to which the fifth is so near, we declare ourselves henceforth and forevermore a free and independent floor with all the rights that appertain to this station."

Don McClintock made a final appeal to reason and the fifth floor gave in for the sake of unity. They said, "We shall render unto God what is God's and unto McCormick what is McCormick's."

Rogers Only Returning Starter To Eighteen Man Falcon Squad

The 1954-55 basketball squad pictured above includes, starting left, clockwise, Ivan Gillespie, Al Benning, Tom Dakich, Walter Rhine, Lanny Miles, Harry Crawford, Max Chapman, Luther Cain, Bob Adams, Dick Johoske, Jim Reid, Jack Hecker, Jim Tucker, Dick Kreg, Bel Birnbaum, Jim Bryan. Center, 1-r Coach Harold Anderson and Captain Bill Rogers.

Dales Whip Falcons In Season Opener

By JACK BEHRENS

Combining a deadly foul line accuracy with a late scoring flurry, Hillsdale College edged the Bowling Green cagers 71 to 68 in the season's opener Wednesday night at the Men's Gym.

The Dales, led by freshman Tom Tate, who tallied 16 points, rallied in the closing minutes of the game to pick up their first win over the Falcon crew in the eight year cage series between the two schools. BG center Max Chapman and guard Jim Tucker sank 15 points each to share the scoring honors for the Falcons.

The foul line proved to be the chief BG scoring weakness, as the Falcons were only able to hit 8 free throws in 23 attempts. Hillsdale however, garnered 23 gratis shots out of 25 tries for a torrid 81 per cent. Both teams were close in field goal percentages—the Falcons hitting for 30 goals in 79 tries for 38 per cent, while the Dales were successful in 24 field goals out of 62 shots for a 39 percentage.

Bowling Green, with Tucker and Chapman supplying the scoring punch, led at halftime, 39 to 31. Midway in the second half, Hillsdale narrowed the BG margin and succeeded in tying the game at 58 all. The Dales then took the lead and subsequent victory in the final minutes of play with a fast scoring spree by guard Bob Neff and sub Don Martus. The Falcons, trying desperately to get back in the ball game, were considerably hampered late in the contest by the loss of veteran guard and captain, Bill Rogers, and his running mate, Tucker. Rogers was forced to leave the game because of muscle cramps, while Tucker fouled out.

Frosh To Meet Christy Motors
In the preliminary tilt, the freshman "whites" defeated the "reds" 86 to 56, in an intra-squad game. Dale Snider collected 16 points for the white team, while Ron Thielman's 12 points was high for the losers.

Tomorrow evening, the Falcon freshman five will meet the talented Christy Motors team of Archibald. The Motors roster includes many former Ohio college stars, among them ex-BG performers John Payak, Bob (Peanuts) Long, Bob Conroy, Jim Knieran, and Ohio State grad, Jim Remington.

CADETS VISIT ORDNANCE DEPOT

Fifty-three junior ROTC students toured the Erie Ordnance Depot at Lacarne, Friday afternoon, Nov. 19.

The cadets traveled by bus to the depot where they saw guns and other Army equipment being manufactured. The group also saw functional firing of several guns and mortars after they left the assembly lines.

1954-55 Basketball Roster

| No. | Name | Pos. | Age | Ht. | Wt. | Class | Hometown (H.S.) |

Falcons Meet Western Ontario In The Men's Gym Tomorrow

The Canadian intercollegiate cage champions, Western Ontario, are here tomorrow night for their fifth game with the Bowling Green Falcons.

The Mustangs return with four of the five men who started against Bowling Green last year. The only lost starter is John Garvin, a 6' 4" forward. Led by Chris Ellis, a 6' 3" medical student, the Western Ontario quintet could be a real tough ball club due to their tremendous experience. Not only do the Mustangs have four of their five far. Last year BG won 98-55, but to quote Don Cunningham, "BG was so hot they shot the eyes out of the baskets."

Western Ontario has yet to win a game from Bowling Green in the four games played thus starters back but they lost only two men of their ten-man roster of last year.

Other returning starters are Don Getty, a 6' 1" guard, Don Prowse, a 5' 10" guard, and Walt Karabin, a 6' 3" center. The rest of the squad is composed of Bill Fowler, a small hard-driving ball player, Coulter Osborne, a 6' 3"

reserve last year who saw considerable action, Gord Scratch, a 6' forward, and Bob Ford, a 6' 3" senior forward.

Field Problem With TU Ends In Draw

Seven Army officers and enlisted men ruled a draw in the field problem between the BG Pershing Rifle Company I-1 and the Toledo University Pershing Rifle Company held near Grand Rapids Saturday evening, Nov. 20.

The Toledo cadets, who outnumbered Bowling Green two to one, made a simulated attack upon a perimeter defense established by the Bowling Green unit. Toledo managed to penetrate our defense, but this would have been prevented if the Bowling Green cadets could have fired their primary weapons, the 105 mm howitzers, as in actual combat.

Two New Leagues Established For Intramural Volleyball Teams

For the first time in the Bowling Green intramural history fraternities and independents are scheduled to play each other in volleyball, according to Intramural Director, David Matthews. Because only 11 teams signed up, 2 leagues were set up instead of the regular 3, which made it necessary for the independents to play the fraternities.

Mr. Matthews added that the matches between the fraternities and independents would not count in either of the standings as both would have their own separate play-off at the end of the season.

The season opened last night in League II with four matches scheduled. The next action will be Monday in League I where six matches are to be played.

Six Matches Monday

Following are the schedules for both leagues: League I, Dec. 6, Pi Kappa Alpha vs Zeta Beta Tau; Sigma Nu vs. Kappa Sigma; Blacks vs. The Group; PiKA vs. Sigma Nu; Kappa Sigma vs. Blacks; ZBT vs. The Group. Wednesday, Dec. 8, PiKA vs. Kappa Sigma; Blacks

vs. ZBT; Sigma Nu vs. The Group; PiKA vs. Blacks; The Group vs. Kappa Sigma; ZBT vs. Sigma Nu. Thursday, Dec. 9, PiKA vs. The Group; ZBT vs. Kappa Sigma; Sigma Nu vs. Blacks. All games to be played at 8:15 p.m. in the Men's Gym.

Games Start At 8:15 p.m.

League II, Tuesday, Dec. 7, 8:15 p.m., Sigma Chi vs. Theta Chi; Delta Upsilon vs. Nameless Wonders. At 8:45 p.m., Phi Kappa Tau vs. DU; Theta Chi vs. Nameless Wonders. Thursday, Dec. 9, 8:45 p.m., Sigma Chi vs. Nameless Wonders; Phi Kappa Tau vs. Theta Chi.

THE OPERATOR

On every American campus there are four standard fixtures: No. 1 — ivy; No. 2 — a statue of the founder; No. 3 — Philip Morris Cigarettes; No. 4 — The Operator.

The ivy is to prevent strangers from mistaking the college for a warehouse. The statue of the founder provides shade for necking when the weather is fine. The Philip Morris Cigarettes are an aid to concentration when you are studious, an aid to sociability when you are sportive, and a source of smoke rings to impress new girls . . . And The Operator is the man you can't do without.

Well do I remember The Operator on my campus. He was a young man with a ready smile, a quick mind, fifteen complete changes of wardrobe, a six room apartment, a red convertible, and assorted stocks, bonds, securities, and second mortgages.

The Operator's origins were a source of lively speculation. Some said he was left over from the old Capone gang. Some said he was Judge Crater. Some said he sprang from the brow of Zeus.

But, in fact, he was just an ordinary student — to begin with. In his first year he studied hard, took copious lecture notes, got good grades, and made a big reputation as a friend in need. He'd lend you money; he'd let you copy his lecture notes; he'd write themes for you; he'd sit up all night to help you cram for an exam. All of this was done with infinite good nature on his part, and no obligation on yours . . . The first year, that is.

In the second year The Operator started to operate. He'd still let you copy his lecture notes — but it cost you a quarter. Sitting up to help you cram cost 50 cents an hour till midnight, 75 cents an hour afterwards. His prices for writing themes were based on a sliding scale — a dollar for a "C", two for a "B", three for an "A". A "D" cost you nothing, and if you flunked, you got a dollar credit on the next theme he wrote for you.

His services expanded steadily. He added a line of cribs for examinations. He booked bets on football games. He did a bit of bootlegging. He ran a date bureau. He rented cars, tuxedos, non-willing boutonnieres.

But all of these were really sidelines. His main line was lending money. At any hour of the day or night, for any amount from a dollar to a hundred, The Operator was always ready with a sympathetic ear and cash on the barrelhead. And he rarely charged more than 150 percent interest.

Usury and sharp trading are practices not calculated to win affection. Nobody loved The Operator. But nobody did anything about it either . . . Because undergraduates live in a perpetual state of need — need of money, need of lecture notes, need of romance, need of beer, need of something — and The Operator was the goose that laid the golden eggs and, therefore, safe.

Nor did The Operator seek affection. He just went his well-heeled way, serene and carefree . . . No, not quite carefree. One thing troubled him: a fear that some day he might graduate. Graduation, leaving school, would mean the end of his empire. You can't run a business like that from the outside; you must be right in the midst of things, spotting opportunities, anticipating needs, keeping your finger on the public pulse.

So he took great pains to stay in school, but never to graduate. This he accomplished by constantly shifting majors. He would come within a semester of getting a B.A. in sociology and then transfer to law. When he had nearly enough law credits, he'd switch to business administration. Then from business administration to psychology, from psychology to French, from French to history, and so on, meanwhile getting cultured as all get-out, rich as Croesus, and never accumulating quite enough credits for a degree.

Finally, of course, it caught up with him. There came a semester when no matter what he took, he had to wind up with some kind of a degree. He looked frantically through the class schedule trying to find some major he hadn't tried yet. And he found one — physical education. So, sleek and pudgy though he was from high living, The Operator entered the department of physical ed.

It was a mistake. Among the people he had to wrestle and box with were some great hulking fellows who, like everybody else on campus, owed him money.

Their tiny foreheads creased with glee as they regarded The Operator's trembling little body; their massive biceps swelled joyously; their flexors rippled with delight. Rumbling happily, they fell upon him and covered him with lumps, the smallest of which would have taken first prize in any lump contest you might name.

Confused and sick at heart, The Operator dragged his battered members home. He knew he had to get out of physical ed; his life was forfeit if he did not. So, unhappily, he transferred to some other course, and the following June, a beaten man in his cap and gown, received with lifeless hands a diploma and a bachelor of arts degree and shambled out into the great world.

I don't know what happened to The Operator after graduation. It's not a bad guess that he's serving time in some pokey somewhere. Or maybe he was lucky and went into the advertising business. If so, he is surely a big man on Madison Avenue today.

But, as I say, I don't know what happened to him. But this I do know: another Operator appeared on campus as soon as this one left, and he in turn was replaced by another, and the process goes on endlessly.

For as long as boy students like girl students better than going to class, as long as parents cling to the delusion that the allowance they had at college is sufficient for their children, as long as blood runs warm and cash runs short, there will be an Operator operating on every campus everywhere.

SAE 'Tip-Off' Dance Hails Beginning Of Basketball Season

The Sigma Alpha Epsilon "Tip-Off Dance," sponsored annually at the beginning of the basketball season, will be held tomorrow night from 9 to 12 in the Women's Gym.

Decorations consist of a large basketball hoop at the doorway leading into the dance floor. The false ceiling walls and bandstand backdrop will be decorated with purple and gold crepe paper.

During intermission the fraternity will crown its 1955 Sweetheart and present her with flowers. Coach Harold Anderson will be introduced and in turn present the varsity basketball team. John Sapelly will be master of ceremonies. Punch and cookies will be served after intermission.

Jack Leonard and Tom Hoskinson are co-chairmen of the dance. Jack Clarke and his band will play.

Shorthand System Helps Note Taking

The business education department is offering to all students in the University a two-hour elective course in personal-use shorthand next semester. The system uses only letters of the alphabet rather than symbols and can be learned sufficiently in one semester. While not as fast as a symbol shorthand, it will enable students to write at twice the speed of their normal handwriting.

The primary purpose for offering such a course is to give students a more efficient way of taking class notes or library reading notes and should also prove valuable after graduation for note taking. Anyone desiring more information should contact Dr. Galen Stutsman, 304 Practical Arts Bldg.

U.C.F. Sponsors Study Program For Students

Under the United Christian Fellowship study program, a new non-credit course is being offered to business majors. It is titled, "The Philosophy of Business."

Interested students may meet one hour a week at their convenience with Dr. Tom Tuttle, chairman of the philosophy department. Cards may be filled out at the UCF House.

UCF feels that the course will give business majors an opportunity to do some thinking on their own philosophy of business. The class will begin before Christmas vacation and will last for 10 weeks.

The Christmas Spirit Contest has been renamed the Christmas Display because it was felt that a contest is not necessary to promote Christmas spirit.

This year the door decorations will be judged Dec. 11 starting at 10 a.m. The door decorations will be judged on originality, appropriateness, and artistic value.

A limit of \$10 has been set for decoration expenses. Expense accounts will be collected the morning of the judging.

Trophies will be given to the outstanding display in both the men's and women's housing units. Every housing unit is eligible to enter.

Reach 100 Per Cent

Delta Tau Delta and Alpha Gamma Delta have been added to the list of groups which contributed 100 per cent donations to the Campus Chest Drive, according to Jan Crouch, general co-chairman.

These organizations, along with the 13 other campus groups which collected \$1 quota from every person, will be awarded mahogany and silver plaques as soon as the inscriptions can be engraved and distributed. These 15 groups represent nearly half of the housing units, showing an increase over last year in percentage contribution to the recent drive.

Pins to Pans

Pinned: Jan Barker, Alpha Chi Omega, to Paul Atkinson, Sigma Nu; Vivian Crawford, Alpha Phi, to Harry Fisher, Penn State; Fran Georgi, Gamma Phi Beta, to Rusty Hanthorn, Sigma Phi Epsilon at OSU; Ginger Campbell, Williams Hall, to Herb Smolka, Delta Tau Delta; and Charlotte Sennett, Delta Zeta, to Bruzz Petkovsek, Hiram College.

Engaged: Flo Beatty, Delta Zeta alum, to John Rowe, Phi Kappa Tau alum; Marilyn Sawyer, Gamma Phi Beta, to Dick Rytel, Pi Kappa Alpha; Janine Vescelus, Gamma Phi Beta, to Bob Flynn, Sigma Alpha Epsilon at Bucknell; and Betty Bellaire, Kappa Delta, to Stephen Zayaz, University of Pittsburgh.

Dr. Arnold Moderates At Psychology Panel

"The Relationship Between Psychologists and Psychiatrists" was the topic of a panel discussion held in the Psychology Bldg., on Wednesday, Dec. 1, at 8 p.m., by the Northwestern Ohio Psychology Club.

The panel was made up of Dr. James Bond and Dr. William Tanner, who are on the staff of the Toledo State Hospital, and Frank Bean, of the Toledo Mental Hygiene Center.

Dr. Frank C. Arnold, assistant professor of psychology, was the moderator during the discussion.

English Profs Discuss Future Semantics Talks

Dr. Richard C. Carpenter and Dr. Robert R. Hubach led the discussion about Dr. S. I. Hayakawa's coming talks on semantics at the Book and Coffee Hour in the Recreation Hall at 4 p.m. Thursday, Dec. 2.

On Thursday, Dec. 9, the Book and Coffee Hour will be devoted to impressions received from Dr. Hayakawa's speech "How Can Teachers Communicate Better?" of Dec. 6 and 7.

Music Group Initiates 5

Phi Sigma Mu, national recognition society in music education, initiated five members Wednesday, Nov. 17 in Studio A of the Practical Arts Bldg.

New members are Alison May, Karis Stahl, Mary Lou Robinson, Jane Herrmann, and Edward Stearns.

UCF Speaker Will Discuss Mexican Trip

After the 9 o'clock Mass Sunday, the Newman Club will hold its monthly Communion Breakfast in the Parish Hall.

A guest speaker will address the group, reports John Luccio, president. The last breakfast was attended by more than 130 members. Tickets may be purchased from dorm representatives.

The Men's Independent Society has recently pledged eight upperclassmen, announced Ted Prueter, membership chairman. The men are: Donald Blake, James Bloede, Norman Brown, David Jeong, Larry Kent, Herbert Lyman, James Whipple and Lionel Danick.

Elective Sheets Include 93 Courses Open To Students

If you're having troubles deciding what courses to take for those few hours of electives that must be filled on your spring semester's schedule, ask your adviser or any Liberal Arts friends for the elective sheet given them at Dean Kenneth H. McFall's office.

This mimeographed sheet lists 93 courses open to students, and you don't have to be a member of the LA College to sign up for them. Of the varied fields included in the listings, certainly you can find a course to suit your liking, and all of them are free of prerequisites.

Arty Hobbies?

Just to give you a preview of the interesting subjects on the list, perhaps you're interested in "arty" hobbies. If so, the art department offers drawing, design, lettering, ceramics, jewelry design, and arts and crafts. If you've noticed, that "make-it-yourself" look on metal and enameled jewelry is now "the thing," both on the campus and off. This three-hour jewelry design course is open to all juniors and seniors. Lettering, drawing, and design may also come in handy in later years when you want to add that artistic touch to invitations or club posters.

Perhaps you're interested in acting. The speech department offers juniors and seniors one or two hours credit for working on, or in, one-act and University Theater productions. You might also be interested in appreciation of the theater, radio production, or parliamentary procedure. And you never can tell when lip reading might come in handy.

Marriage Relationship Offered

In the field of sociology the ever-popular marriage relationships course is offered to juniors and seniors for three hours credit, or you might try your hand at criminology in case you should want to do some private detecting on an amateur level.

The health and physical education department is offering courses to all students in personal hygiene (or how to keep clean and healthy) which you might like to urge one or two of your roommates to study. Community hygiene and camp leadership are also on the list, and for upperclassmen there are courses in community recreation and first aid.

You might need a little brushing up on the history of the United States, or maybe you're sick of that and want to branch out into western civilization, economic history, Europe from 1914 to present, or England and the British Empire which the history department has listed. On a more serious side, the course in far eastern history should be encouraged for better understanding of the Asian peoples on which the eyes of the world are now focused.

Read The Best

If you like reading the best authors of the modern world, the English department offers juniors

and seniors a three-hour course in the contemporary novel. For all but freshmen, courses in world and introduction to literature are open, as well as writing and grammar courses.

For those of you who like to travel and don't mind getting out of bed in the wee hours of the morning, the biology department offers ornithology for two hours credit. (That's bird watching in case you didn't know.) In the other fields of science are courses of introductory physics and the acoustics of music. Introductory courses are also offered in chemistry, geology, geography, and biology.

Courses in Journalism

The journalism department has courses in news writing and photography and advanced courses in advertising, history of American journalism, and the ethics of journalism. The library science department is offering the history of books and printing, classification and cataloging, book reviews and reading lists.

Business administration, home economics, math, psychology, economics, education, industrial arts, Latin, philosophy, and music courses are also included in the listing of electives you might be interested in scheduling for this spring.

If you're in need of an elective course, you'll profit by looking over this list before you complete your registration.

Group To Give Play At UCF Meeting

"He Came Seeing" is the name of the play planned for presentation immediately following the Sunday evening meeting of United Christian Fellowship this week end.

The play concerns a blind boy healed by Christ, but who is told he must renounce him or be excommunicated from the church. The story revolves around his decision.

Janine Vescelus is directing the cast composed of: Janet Spelder, Anna; Jim Rodgers, Asa; Doug Cotner, Joab; Cindy Dicken, Judith; and Harry Hart, Hilkiah.

The regular UCF meeting will be at 6:30 p.m. in studio B, Practical Arts Bldg., instead of the Recreation Hall. The play will follow at 7:15 p.m. in the Gate Theater.
